7.62 PLATFORM UTM™ TRAINING WEAPON

Ultimate Training Munitions

DEDICATED TO SAFETY

The "Live" weapon is permanently converted to a UTM training weapon, including the unique patented off center firing pin bolt. The safety feature inhibits discharge of a live round if it were to be inadvertently chambered. Conversion of the weapon includes a feature that stops a live bolt from being refitted to the weapon. Blue indicators on the weapon provide clear visual confirmation that it is a training weapon.
